

**July 28<sup>th</sup>, 2022**

**From: Bealls Transportation Team**

**To: Bealls Inc. Valued Business Partner**

This letter serves as notification that Bealls will be reorganizing our Central Transport LTL network in your area, effective for pickups on 8/1/22. This change is designed to improve both our speed to market and pickup service level to all our vendors in these related geography's.

Effective for 8/1/22 the following changes will go into effect.

- All Louisville, KY service area vendors will now be serviced out of the Central Transport Cincinnati OH terminal
- All Conley, GA service area vendors will be split between the Central Transport Charlotte, NC terminal and the Central Transport Tampa FL location, based on geography alignment.

Refer to your load confirmation email when your carrier is assigned, as it will reflect your assigned terminal. All other routing instructions will remain the same.

Your Bealls partnership guide will also contain this communication and updates to the routing guide.

**For any questions, please use the Webform communication tool in our partnership guide.**

**Or email [BeallsTMS@beallsinc.com](mailto:BeallsTMS@beallsinc.com)**

**Here are the direct links to the Webforms.**
